CeutiCare, LLC is a Collaborative Medication Therapy Management (CMTM) Company

CeutiCare engages with an acute care provider (hospital/health system) to provide C-MTM services to its primary care network. We locate pharmacists on-site at a physician's office that is affiliated with or supported by an acute care provider to improve the health of chronic care patients such as diabetics, and reduce the overall cost of treatment.

Insurance companies can benefit from the CeutiCare MTM system.
CeutiCare's pharmacists in Ohio can benefit the self insured employer.

Insurer Benefits:

- * Our pharmacists work with insurers on prior authorizations and formulary issues
- * We track success of medications per indication
 - Accurate Reporting
 - Validation of patient outcomes
 - Assistance in quantifying cost savings
- * We assist in reducing medication waste
- * By lowering treatment cost of diabetes CeutiCare provides company with funds to maintain or lower insurance rates

Self Insured:

- * Employers provide employees and family members who have diabetes with the most effective treatments customized for each individual patient
- * CeutiCare helps to lower employees' out-of-pocket costs
- * CeutiCare increases employee productivity, since employees need less time off for diabetes and its complications
- * CeutiCare can help lower the employer's cost of health insurance by lowering the cost of medical care

Contact CeutiCare today for more information or to request an on-site pharmacist!
